

An artist's shout-out to Save Nature

TANUSHREE PODDAR

Madhavi Kolte, an artist who redefines her vision of nature in her art. A resident of Five Gardens in Pimple Saudagar, she speaks about her love for art.

INTRODUCTION

Like her father, Retd Justice BG Kolse Patil, Madhavi also studied law but since her childhood she was inclined towards art and would paint as a hobby. While pursuing her graduation in law she came across Bal Wad, former director of Camlin, an eminent ceramicist and painter who she considers guru, guided her with the tools and technique to polish her passion towards fine art where he taught ceramic and sculpturing art.

INFLUENCER

Her father being an activist, concern towards the surrounding has become a driving force in her thought process.

LEARNING THE TECHNIQUE

While her break after marriage, the artist in her kept her alive and ex-

plored various pottery studios where she came across Gauri Gandhi, from whom she learned the constructive method of coiling using clay. She says, "According to the art, an artist starts mastering the techniques as the expression comes out well."

THE VISION

Pune has been drastically transforming since the 90's so it is difficult to differentiate what is good and bad but realized something was not right. While snorkeling at Lakshadweep she was intermediated by the movement of live coral reefs on the ocean bed which inspired her to develop her coiling technique to express her vision of having immortal version of coral and while expressing the coral she realized a lot of natural elements were getting manifested. To connect with nature more she also did a course from Ecological Society to understand the field which gave her the chance to study about the physics and botany of the nature, hills, coastal area and much more which eventually helps her in constructing an art piece.

FLOW OF THOUGHT

In that process she worked on more series of work where she showcases positive ways of expressing her concerns through art by showing the forms and beauty of trees, leaves to bring her viewers closer to these elements in nature which had whole series of dried leaves as she has always seen the beauty of a leaf, tree series, hills, faces, ant hills and much more.

"Every art has a story and the ant hill depicts how such small creatures build a strong shelter with proper coordination without affecting the surrounding which we human being need to learn," she concludes.

On the meeting with the CM, Sudhir also said, "He carefully read the problems and suggested short and long time solutions to the problems mentioned and assured delegation that would immediately look into the matter."

Traffic Police Inspector, Hinjawadi Kishore Mhaswade said, "ITians supported the movement as well as the villagers. Police Commissioner of PCMC also initiated a talk with the villagers and ITians to resolve the issue."

Anshul Gupta, an active member of HIRWA as well as a resident of Hinjawadi shared that the traffic jam at Vishal Nagar connecting to Hinjawadi main road takes at least 2 hours to get cleared which creates severe air pollution, excessive waste of petrol, accidents due to potholes as well as people staying on the main roads get disturbed."

Amit Jain, ITian said that its easy to return but it takes time to reach office which is only increasing.

Rahul Kalate, Shiv Sena, PCMC corporator from Wakad handed over a letter to Trade minister Subhash Desai and appealed to create a bridge from Hinjawadi Phase-3 - Wakad Bridge - PCMC as the route comes under MIDC jurisdiction and PCMC has planned to build flyover from Savitribai Phule Udyan to Hinjawadi Phase-3 as a solution to the congestion occurring at Hinjawadi.

The petition demands financial aid from the state government for the newly laid plan of the flyover along with an appeal to grant permission from MIDC.

The petition also shed light

on Hinjawadi InfoTech Park which is constructed on the boundary of PCMC as well as points out on the responsibility of MIDC to help and work for the basic needs in the development of Hinjawadi as around 3.5 lakh commuters are using the roads connecting to Hinjawadi from whole Pune which takes around 1-2 hours to cover the route from Wakad to Shivaji Chowk, which is time taking.

CLASSIFIEDS

TUTIONS

SANSKRIT, HINDI, MARATHI STUDENTS FROM 5TH TO 10TH STANDARD CBSE/State Board Crash course / Regular classes fees Rs. 1000/-Per month 17 years experience of teaching Contact 9823794674 (200818)

Providing limitless opportunities

Milestones Montessori School, Wakad celebrated 148th birth anniversary of Dr. Maria Montessori on 31 August. "I hear - I forget. I see - I remember, I experience - I understand", said Dr. Maria Montessori

Maria Montessori an Italian Physician, Educator and Innovator has a worldwide recognition for her unique educational method. She opened the first Montessori school "Casa dei Bambini" or "House of Children" in the year 1907 in Rome. In a Montessori environment children develop confidence, independence, self expression, compassion and empathy while they learn the

basic academic skills.

Milestones Montessori School,

an initiative of Pumpkin Patch follows pure Montessori methodology, based on Dr. Maria Montessori's educational philosophy. The environment offer limitless opportunities to children to realize their full potential.

Milestones - 'House of children' is a joyous place catering to the child's natural development.
